

COVID – 19 UPDATE

I know that the growing concern around COVID-19 has everyone feeling uneasy, especially as we face more changes to our daily routines and future plans. I assure you our top priority is the health, safety and well-being of the public and our employees. This is why I am personally reaching out to you today to let you know that we are here to help.

I know that your main priorities are keeping your families safe and ensuring that you have the essentials. The best thing we can all do is stay home if you are able to. Please make every effort to do that. If you need to go out for groceries or essentials remember that social distancing is crucial, wash your hands and do not touch your face. If you are self-isolating someone else should be shopping for you or use their delivery service.

These are unprecedented times that call for serious action, trust in each other and belief in doing the right thing in all respects. The Town of Hanover will continue to monitor the situation as it evolves and as further directives and recommendations are communicated to us we will respond accordingly. We will come through this but we need to do it together.
